## Erection Division.

SSIS is committed to building quality commercial and industrial steel structures. We incorporate all aspects of structural design and approach challenges with innovative, cost-effective solutions. Our team is well equipped to handle complex jobs. We manage all types of erection activities, including engaging subcontractors and overseeing their work to completion.

## Blasting and Painting Division

Here at SSIS we have a dedicated Painting and Blasting booth with capabilities of single and multi-coat system paint finishing. This means that your component can stay under one roof for all of your requirements, rather than having to visit various sub-contractors for finishing. Any specific RAL or coating requirements can be handled competently and professionally with our in-house finishing team.
